Social Initiative

***“ Changing Lives
We Rise By Lifting Others “***

The fulfilling feeling of giving back and contributing to society is unparalleled. No one has ever become poor by sharing. It involves a certain amount of giving. It's not how much we give but how much love we put into giving.

As we grow older, we discover that we have two hands – one for helping ourselves and the other for helping others.” We all come to the world with the joy of having things, but when we leave this world, we should have experienced the joy of contributing and giving back to the society. That is a mature joy, the real joy. There's nothing more rewarding than giving back and making a difference in the lives of the people in this great community.

“ Giving is not just about making a donation. It is about making a difference.”

Computer class- “School on Wheels” Campaign - 19 Slums Beas Distt - Amritsar

Our company has taken a unique initiative to impart computer training to the children living in the slums in which we conduct computer classes for the children in our company bus. In the month of February, Under this initiative, our team provided computer classes to the children of Beas slums who go to school.

Our endeavor and dream is to provide quality education facilities to the children of economically weaker families at our own level as these children deserve it. They too should grow up to be IT engineers and help their families get out of financial difficulties. Free education can prove better than any financial help. We shall continue to do this service regularly.
