***“ Changing Lives
We Rise By Lifting Others “***

The fulfilling feeling of giving back and contributing to society is unparalleled. No one has ever become poor by sharing. It involves a certain amount of giving. It's not how much we give but how much love we put into giving.

As we grow older, we discover that we have two hands – one for helping ourselves and the other for helping others.” We all come to the world with the joy of having things, but when we leave this world, we should have experienced the joy of contributing and giving back to the society. That is a mature joy, the real joy. There's nothing more rewarding than giving back and making a difference in the lives of the people in this great community.

“ Giving is not just about making a donation. It is about making a difference.”

Computer class- “School on Wheels” Campaign - 12 Slums Beas Distt - Amritsar

SimbaQuartz has made a special effort to teach computer skills to the kids living in the slums where we provide computer sessions for the kids riding in our company bus. The SQ team offered computer classes to the Beas slum youngsters who attend school in light of this program.

As these children equally deserve a great education, it is our goal and hopes to offer these facilities at our own level to children from economically disadvantaged homes. They ought to become IT engineers when they are adults to support their families financially. Free education can be more beneficial than any form of assistance.
